

GENERAL STRIKE IN MEXICO IS SPREADING

(Special Service to Glendale Evening News)
VERA CRUZ, Mexico, Nov. 13.—A general strike has been called in sympathy with striking stevedores and is spreading along the entire Gulf coast, according to advices received here today. Ten strikebreakers who attempted to take the places of stevedores in Progreso, Yucatan, were reported to have been killed by strikers. Practically all workers in Tampico have quit their jobs and are parading the streets singing revolutionary songs.

BOMB FAILS TO BLOW UP CUSTOM HOUSE

(Special Service to Glendale Evening News)
MEXICO CITY, Nov. 13.—Official dispatches to the war office today reported a general strike, attended by various disorders, has been declared throughout the province of Yucatan. Pitched battles have occurred in several places.

Strikers attempted to blow up the Custom House but the bomb failed to explode. It is understood the government has assumed a policy of non-interference unless the strikers commit overt acts.

REPORT SEBASTOPOL HAS BEEN EVACUATED

(Special Service to Glendale Evening News)
CONSTANTINOPLE, Nov. 13.—Unconfirmed dispatches today reported that Sebastopol, principal headquarters of General Wrangle, has been evacuated. While Wrangle's men were engaged with "Red" troops around Perekop, Bolsheviks crossed the frozen sea of Azov and attacked them from the rear. Fear was expressed that the Wrangle forces about Perekop have been annihilated.

TO START FRAMING NEW IMMIGRATION BILL

(Special Service to Glendale Evening News)
WASHINGTON, Nov. 13.—Chairman Johnson of the House Immigration Committee today announced the committee will start the work of framing a new and more restrictive immigration bill on Monday. He said that the problem of Japanese immigration along the Pacific coast is to be considered first.

WOMEN'S UNION SOLDIER BOYS

BAPTIST LADIES DO WHITE CROSS WORK; REPAIR GIFTS FOR INDIANS

The regular meeting of the Women's Union of the Glendale Baptist church was held yesterday. The morning was spent in doing White Cross work. Gifts for the Indian mission at Fresno Flats were prepared. These gifts are to be presented in a Christmas box consisting of bandanna handkerchiefs for the men, and fancy bags and handkerchiefs for the women and children. A barrel of canned fruit is to be sent to the Sunlight Indian mission in Arizona, and various gifts presented to other missions. At noon a delicious luncheon was served. A number of Indian legends were given by Mrs. W. F. Wood. At 2 o'clock the missionary program was given. This consisted of stories from the "Friendly Road," by Mrs. A. J. Maxwell, recitations by little Ethelwyn Kent, and a talk by Mrs. Root of the juvenile court on the work of her department and "How to Keep Boys and Girls Out of the Juvenile Court." The program, which was especially interesting and enjoyed by all, was in charge of Mrs. E. E. Ford.

HONORED GUESTS

MR. AND MRS. MORSE ENTERTAIN TWO FAMOUS CHARACTER-COMEDIANS

Mr. and Mrs. S. B. Morse, of 135 South Everett street, will entertain two distinguished guests tomorrow. They are Mr. and Mrs. James McIntyre, of the McIntyre & Heath company, now playing in "Hello, Alexander," at the Mason Opera house in Los Angeles.

Both Mr. and Mrs. McIntyre are comedians of world-wide fame. Mr. McIntyre is probably the dean of character-comedians. He and Mrs. Morse are life-long friends and are looking forward with pleasure to a day's visit together.

Mr. and Mrs. Morse will entertain their guests at dinner at the Hollywood Country club.

The hunting party, composed of A. L. Baird, Dr. T. C. Young, Dr. J. P. Luccock, Harry MacBain, Max Green, Roy Hincheliffe, "Happy" Easton and "Rufe," which motored to Buena Vista Lake on Armistice Day, report having shot four geese.

ENTERTAINED AT THORNYCROFT CROFT BY ORCHESTRA—MORE PROGRAMS ARE WANTED

The soldier boys at Thornycroft were guests at a delightful musicale given by the orchestra of the First Methodist Sunday school in the reception room at Thornycroft last evening. The twelve-piece orchestra, under the leadership of C. K. Aston, who is also the leader of the American Legion band, gave a number of selections that were enthusiastically received by the thirty-five guests who were able to assemble to hear them. These programs and the social hour that follows are a source of great pleasure to the soldiers invalided at Thornycroft. There is a demand for more of such entertainment, and anyone interested in arranging such programs for the boys is invited to communicate with Mrs. E. U. Emery, 329 North Kenwood street; telephone Glendale 523.

Elks' Side Degree

The Oriental Degree, which is an organization to which only Elks can belong yet has no official connection with the order but is merely a side degree, was conferred on 209 loyal Elks last night in the lodge hall. The ritual work, which is uproariously funny, was put on by the degree team from Los Angeles 99. Entertainment in the form of "high jinks" and a big feed followed the exercises.

THE ROLL CALL

RED CROSS WORKERS COMING BACK FOR MORE SUPPLIES

Mrs. E. W. W. Hayward, who is in charge of the Red Cross Roll Call, reports that while she has no definite statements from her workers, many of them are coming back for more supplies and she is satisfied that the \$2000 which Glendale is asked to subscribe will be received long before the 25th, which is the day set for the closing of the Roll Call.

"The drive will not begin in earnest until Monday," said Mrs. Hayward. "Most of the churches will enroll members and we wish to give them an opportunity to get all they can before our workers start out to canvass the city."

She reports that Dr. Harrower's laboratory enrolled 100 per cent strong on Armistice Day.

MUST HAVE A SEWER SYSTEM

MANY STONED BUILDINGS IMPOSSIBLE WITHOUT, SAYS MRS. J. B. MCENARY

COST IS IMMATERIAL

SUPERIOR ADVANTAGES TO BE GAINED FAR OUTWEIGH EXPENSE

Work was started today on Mrs. James B. McEnany's one-story brick building in the rear of Spohr's drug store. It will have a frontage of 70 feet and a depth of 44 feet. Space will be left between it and the drug store so as to allow a rear entrance to the latter. Mrs. McEnany's building will face on Broadway, of course, and will contain five store rooms, nearly all of which have already been leased. She had intended a three-story building, but lack of sewer facilities and the impossibility of further cesspool construction prevented. Mrs. McEnany is an ardent advocate of a complete sewer system, as the lack of it is bound to hamper Glendale's growth, she avers. She owns large frontage on Brand and Colorado at the southwest corner of the crossing of those streets and says she expects to have erected there a five or six-story building some day. If a sewer system is provided, she believes that we would have had more than one building of that class in Glendale are now had there been a proper sewerage outlet. Hotels commensurate with Glendale's size and importance are impossible she thinks until an adequate sewer system is provided, and in her estimation no legitimate outlay would be too great for such an object, as the money spent would be returned many fold in a very few years.

Death of R. A. Campbell

Robert Alonzo Campbell departed this life at his home, 1002 Orange Grove avenue, this city, Friday, November 12, aged 62 years. He is survived by his wife, Mrs. Melissa Campbell, two daughters, Mrs. Edna Cravens of 1002 Orange Grove avenue and Miss Una Campbell of Oklahoma; also one son, Walter Campbell of Cincinnati, Ohio. Deceased had been a resident of Glendale for one year and had many friends and acquaintances here. Mr. Campbell was formerly general freight agent for the Southern Railway out at Washington, D. C. He was a 32d degree Mason, a Knight Templar and a Shriner. The remains are at the parlors of the Jewel City Undertaking Co. Funeral services will be from the Little Church of the Flowers Tuesday morning at 10 o'clock. Remains are to be shipped later to the old home at St. Louis, Missouri.

Visiting Day

November 18th has been set aside as "Visiting Day" by the Pacific Telephone & Telegraph Company of Glendale. Patrons are invited to come and see detailed workings of the system, which will be explained to them by courteous employees. The plant will be open for inspection from one until nine p. m.

RECEPTION

REVEREND CHARLES M. CALDERWOOD AND MRS. CALDERWOOD HONORED

The First Congregational church looked its loveliest last night when the members held a reception in honor of the new pastor, Rev. Chas. M. Calderwood, and his wife. Rugs had been thrown on the floor and huge jardinières of chrysanthemums were used effectively to give a very homelike air to the church.

A charming musical program was given during the evening by a trio of ladies who played the piano, violin and saxophone. Coffee and cake were served by Lillian Owens and Winifred Parker, and the punch table was presided over by Gladys White, Evelyn Gregg, Marjorie Jarick and Evelyn Shaw.

In the receiving line were Rev. and Mrs. Calderwood, Mr. and Mrs. Hartley Shaw, Mrs. Blake Franklin and Mrs. C. M. Van Dyke. Members and friends and strangers all met together and a very happy spirit of cordiality pervaded the whole evening.

WEEKLY MEETING OF CITY TRUSTEES

BIDS FOR IMPROVEMENT OF SYCAMORE CANYON ROAD OPENED AND READ

ACTION IS DEFERRED

USUAL AMOUNT OF ROUTINE WORK WAS TRANSACTED

The board assembled at 8:15 p. m. November 12, 1920. There were present Trustees Bartlett, Henry, Robinson and Stephenson. Trustee Shaw entered at 9:20 p. m. Trustee Stephenson was elected president pro-tem.

The minutes of the regular meeting of November 4, 1920, were read and approved. Bids were ordered to be opened for supplying booster pump. The clerk reported that none had been received. Bids were ordered to be opened for the construction of a pump house and the bid of C. W. Kent & Son was opened, read, and publicly declared, agreeing to do the work for \$1900 with a deduction of \$25 if the substitution of hollow tile was permitted. The bid was referred to the engineer of the Public Service department.

In accordance with advertisement called for the same, bids were ordered to be opened, read, and publicly declared for the improvement of Sycamore Canyon road. The following bids were opened and read:

George R. Curtis, accompanied by bond: Grading per linear foot \$5.50, gutter per sq. ft. 30c, paving per sq. ft. 18c, curb (class A) 60c, curb (class B) 50c, sidewalk per sq. ft. 20c, culverts and appurtenances completely installed \$200.

Co., accompanied by bond: Grading \$6.40, gutter 38c, paving 18c, curb (class A) \$1, curb (class B) 80c, sidewalk 25c, culverts and appurtenances \$100.

Bid of George H. Oswald, accompanied by bond: Grading \$5.50, gutter 33c, paving 20c, curb (class A) 70c, curb (class B) 60c, sidewalk 20c, culverts and appurtenances \$100.

Bid of Braun, Bryant and Austin, accompanied by bond: Grading \$6.60, gutter 39c, paving 18c, curb (class A) \$1.05, curb (class B) 90c, culverts and appurtenances \$90, sidewalk 26c.

Bid of Peter L. Ferry, accompanied by bond: Grading \$5.50, gutter 35c, paving 18c, curb (class A) 89c, curb (class B) 80c, sidewalk 25c, culverts and appurtenances \$150.

(Continued on Page 4)

DAY OF ACCIDENTS

FOUR AUTO COLLISIONS IN SOUTH GLENDALE YESTERDAY—ONE MAN HURT

There were four auto accidents in South Glendale yesterday and two of them were quite serious. The first one was at Brand and Los Feliz road where a touring car struck a dairy truck and deluged the street with milk and broken glass, but no one was hurt. The driver of the touring car sped away before his name or plate number could be ascertained and the driver of the truck made no report to the police. At about 11:30, near the Brand and San Fernando road crossing, Roger Beano, of Sycamore avenue, Los Angeles, driving a touring car, collided with a roadster, driver unknown. The latter machine was overturned but only slightly damaged. The other car had both fenders on one side stripped off, a front wheel split, the front axle bent and the radiator damaged. The overturned car was righted, and driven away, and its ownership was not learned. Last night, about 9 o'clock, Dr. A. A. Shaw, of Los Angeles, driving without lights, ran into Louie Gwann, a Chinaman, connected with a Los Angeles produce firm, and hurt him badly. His back was sprained and many bruises inflicted. An ambulance was called and he was taken to his home. The fourth accident is described elsewhere in this issue.

WEATHER FORECAST—Partly cloudy tonight and Sunday. Occasionally threatening.

THE THRILLING STORY OF THIBET

RELATED YESTERDAY BY A RETURNED MISSIONARY FROM THAT COUNTRY

SHELTON KIDNAPPED

ROBBER BANDS INFEST MOUNTAIN FASTNESSES OF THAT FAR-AWAY PLACE

From the wilds of far-away Thibet, high up above the level of the sea, where the mountain barriers that hinder intercourse with neighboring people are scalable at only a few points, come Dr. and Mrs. A. L. Shelton, Christian missionaries, with most interesting tales of life in that far-away land.

Mrs. Shelton was the guest yesterday afternoon of the women's missionary society of Glendale Christian church, at the home of Mrs. Eva Hutton, 326 East Colorado street.

The tales Mrs. Shelton tells of the robber bands in the hills are thrilling to listen to—and the experiences which furnished the materials for the tales were, no doubt, even more thrilling. Fancy waiting for three years for medicines to come in from outside, because of these wandering bands of robbers!

These nomadic tribes that infest the mountains are unlike the settled population of the plateaus further south. These are agricultural tribes who possess some little degree of civilization, although they are very dirty and addicted to strange, superstitious practices.

Mrs. Shelton says the climate in the part of Thibet in which she lived

(Continued on Page 3)

Elect Officers

One of the most important meetings of the year in O. E. S. annals was that called for the purpose of election of officers. About 100 members of Glen Eyrre Chapter were present last evening at the Masonic Temple. Unanimous ballots were cast for Orna V. Naudan as Worthy Matron, W. W. Worley as Worthy Patron and Fannie M. Parke as Associate Matron. Other officers elected were as follows: Annetta Booth, secretary; Alice Carvel, treasurer; Mildred Lyon, conductress; Jennie Phillips, associate conductress. The installation of these officers will take place December 10th and it will be a semi-public affair.

Boy Actor Hurt

There was quite a serious auto accident on North Verdugo road yesterday. "Jacky" Coogan, a bright boy, who played with Charlie Chaplin in his film production, "The Kid," and who was later engaged in a Peck's Bad Boy film, was being taken by his father up north of Glendale to take part in one of the scenes, when their machine skidded and ran into a tree. Jacky suffered a bad fracture of the skull and his father a sprained leg. Both are at the Glendale sanitarium.

KEEN CONTEST

OF CENTRAL AVE. SCHOOL CHILDREN ADDS MANY FATHERS TO P.-T. A.

The P.-T. A. of Central Avenue school is more than 100% perfect. This is not good arithmetic, maybe, for every school child knows 100% means perfect. Paradoxical as it is, 'tis true, for the school enrollment is 230, and the P.-T. A. membership is 230, exceeding the school enrollment by 50.

The solution to the riddle follows: Every child wanted Daddy in the P.-T. A., too, so all the children started a contest to see who'd get the most fathers for members. There was a prize, too, a box of the juiciest, reddest apples to the room that corralled the most fathers. The contest resulted in a tie between the third and sixth grades, so the apples were divided between them.

But everybody reaped a reward for his efforts in interesting Daddy—not only the prize-winning rooms. For the teachers felt that everybody deserved a treat, so just before school closed yesterday, they had a "cake feast" in every room in Central Avenue school, celebrating the enrollment of some of the fathers into the Parent-Teacher association.

APPOINT NEW SHIPPING BOARD MEMBERS

(Special Service to Glendale Evening News)
WASHINGTON, Nov. 13.—President Wilson today announced the appointment of five new members of the shipping board. They included Chester Rowell of California. He is appointed for a term of two years. Rowell was one of the California Republicans who bolted to Governor Cox during the campaign.

START BOOM FOR SENATOR CHAMBERLAIN

(Special Service to Glendale Evening News)
WASHINGTON, Nov. 13.—Republican senatorial colleagues of President-elect Harding today started a boom for Senator Chamberlain of Oregon, Democrat, for Secretary of War in Harding's cabinet. Chamberlain was defeated and will retire from the Senate March 4.

\$750,000 FIRE IN SACRAMENTO DEPT. STORE

(Special Service to Glendale Evening News)
SACRAMENTO, Nov. 13.—Two watchmen were missing and are believed to have perished, five persons were injured, and damage estimated at \$750,000 was done in a fire of undetermined origin which early today destroyed Nathan & Son's department store.

BYINGTON NOW COMMISSIONER OF PENSIONS

(Special Service to Glendale Evening News)
WASHINGTON, Nov. 13.—President Wilson today appointed Frank Byington of Maryland to be commissioner of pensions, and Frederick Royce of California as deputy commissioner.

ONE MAN KILLED IN FIRE ABOARD STEAMER

(Special Service to Glendale Evening News)
VANCOUVER, B. C., Nov. 13.—One man was killed today in a fire which broke out aboard the steamer Ballena, threatening the entire water front and causing damage of \$200,000.

JUDGE LOWE'S COURT

FORMER KANSAS CITY RESIDENT NOW GLENDALE CITIZEN EXPRESSES VIEWS

Editor Evening News:—

I recently had the opportunity of witnessing the handling in Judge Lowe's court of the cases of violation of the traffic laws of Glendale, and I was much impressed with the simple methods in use and the fairness of the judge in each case as they came before him.

Flagrant and confessed violators of the law were rightly fined, but in no spirit of a desire to be harsh or drastic. First offenses of wrong parking, especially by women while shopping, without intent to violate the law, were dismissed with a kindly admonition to be careful in future as the traffic laws are intended to be a safeguard to the people of Glendale against accidents to life and limb and he felt sure that all would help in the matter. Young offenders in the use of motorcycles were given another chance and the law explained to them and the requirements as to license, lights and speed enjoined upon them. I had feared that a rigid enforcement of the automobile traffic laws might result in driving some people away from our city and prevent others from coming, but that evidently is not the interpretation put upon his authority by Judge Lowe. It therefore behooves us all to be careful to prevent such terrible accidents as occur daily in Los Angeles.

JAMES H. GARNSEY,
436 Vine St.

Kills Bob Cat

Officer Herbert responded to a hurry-up call for aid Thursday night and made quick time to 335 North Broadway, the home of F. S. Caldwell, where a wild cat was reported to be killing chickens. On his arrival he found a lynx or bob cat, about three months old, in the poultry yard, slaying chickens at a great rate. Officer Herbert promptly shot the beast. It belonged to L. Bond of 341 West Broadway and had been chained in the back yard, but broke loose. There was great excitement in the neighborhood for a time.

Minnesota Callers

R. F. Kitterman, cashier of the First National Bank, was pleased to greet Mr. and Mrs. Hanson, of La Verne, Minnesota, who called to see him yesterday.

Mr. and Mrs. Hanson are old friends of Mr. Kitterman's; they have known him since he was a small boy.

MUSIC SECTION OF LADIES' CLUB

HELD A VERY PROFITABLE SESSION YESTERDAY AFTERNOON

PLEASANT SURPRISE

WAS THE INTRODUCTION OF THE BRIDE OF ELIA FAGGIOLI

The Music Section of the Tuesday Afternoon club met at the home of Mrs. Frank Arnold, on East Lomita avenue, Friday afternoon, with its curator, Mrs. Charles Marlenee, in the chair.

The business session was devoted chiefly to matters pertaining to the club bazaar which will take place in December, and as this section, together with the Shakespeare section, will have charge of the fancy work booth, Mrs. Marlenee requested that each member make herself responsible for her own and one other donation, at least, and for as many more as possible.

The program of the afternoon was a historical recital of the origin and development of Italian opera. Edgar Vance, notable vocal instructor of Los Angeles, explained in an interesting and concise manner the musical methods of the period and the aspiration of the composers.

Mr. Vance also accompanied at the piano the artist, Elia Alessandro Faggioli, and Miss Bertha Lloyd, in the following program:

First Opera, Florence (1600)—Funesta Piaggie "Euridice," Peri (1610-1686).

First Opera House, Venice (1637)—Intorno All'idol mio "Orontea," Cesti (1620-1688); Che fiero costume "Etocle," Legrenzi (1625-1690); Arietta—Pur dicesti, Lotti (1667-1740).

Comic Opera, Naples, "La serva padrona," Pergolesi (1710-1736), Miss Bertha Lloyd.

The Great Neapolitan School—Arietta—Gia il sole dal gange, Scarlatti (1659-1725); Nel cor piu non mi sento "La bella molinara," Paisiello (1741-1816); Aria, Caro mio ben, Giordani (1743-1798).

Later Operatic Development in France, Germany and Italy—O del mio dolce ardir "Faride ed Elena," Gluck (1714-1787).

"Nazze di Figaro," Mozart (1766-1791), Miss Bertha Lloyd.

Dalla sua pace "Don Giovanni," (Continued on Page 3)

MENTONE

THE HOMESEEKER'S GOAL WHERE THE BEST SAVERS ARE LOCATED

Why pay high rents when you can buy homes at Mentone, only two miles east of the Redlands University at the following low prices and easy terms?

One house of 8 rooms, garage and nearly one acre in oranges for \$4200.
One house of 6 rooms with furnace in basement and four acres of land for \$4500.
One Duplex house within 4 blocks of the center of the city of Redlands, only \$3500. Modern in every way. One house of 5 rooms, modern, 5 blocks out, \$2500.

What difference to the winter tourist, whether he lives in our large cities or lives at Mentone, where he can have pure water, pure mountain air, away from the fog, good schools and fine paved boulevards to ride over?

Mentone is where the Mentone Groves Company's wonderful frostless and pestless navel orange groves are located.

Where we sell 5, 10 or 20 acre tracts of land on the Bear Valley paved boulevard for \$300 per acre, with water.

Only one-tenth of the purchase price to pay down and no further payment for ten years, except the interest at 6 1/2 per cent.

The Mentone Groves Company has employed two tractors preparing and planting land for Los Angeles business men on which to retire later. Apply to W. P. McIntosh, with E. B. Goodrich Co., 337 South Hill St., Los Angeles, Cal.

HART REALTY CO.

We are in a position to offer real bargains in what we have to offer, but prompt action on your part is necessary. Lots especially are selling fast.

The best buy we have is a lot 50x300 clear through from one street to another. All in fruit. Next to a \$15,000 modern home. No other vacant property near.

Lot 50x137 1/2 set to 4-yr. lemons. Close to high school. \$750.

Lot on Glendale avenue near Broadway for only \$1500. Splendid investment.

Modern 5-room home, corner lot, improved. 1 block to car. Only \$3750. Part cash. Easily worth the price asked.

Plot on improved street in fruit, 165x137 1/2, that can't be disputed for value. Only \$15 per front foot. Half cash.

Beautiful modern two-story home. Lot 115x160. Highly improved. Large lawn. World of fruit and flowers. Only \$16,500. Part cash.

ATTENTION—We have for few days only a 6-room modern home with cobbles stone fireplace, extra large plate glass buffet, and many other distinctive features, on a tract 96x260 feet. Fronts on two streets.

Has beautiful trees, lawn and shrubbery, and 40 bearing fruit trees.

Will be sold partly furnished. A beautiful place inside and out. Deducting the selling value of the three extra lots brings the price of the home itself down to about \$6500.

Owner called East and must sell. Total price for the four lots, home and some furniture only \$9000.

Investigate this at once.

CLOSED SATURDAYS

OPEN SUNDAYS

PERSONALS

Miss Margaret Carlyn of San Jose was the mid-week guest of Mrs. R. M. Brown of 416 North Kenwood street.

Mrs. J. L. Ingalls of 606 Orange Grove avenue had as her Friday guest Mrs. W. M. Hollister of Inglewood.

Mrs. Wm. Nichols of 222 1/2 Hawthorne street is visiting her sister at Escondido for two weeks.

Mrs. N. C. Alberts of 358 Oak St. has as her house guests her parents, Mr. and Mrs. Marshman, of Chicago, who will spend the winter here.

Chas. W. Kent & Son have started the erection of a five-room farm house for the Morrell Farming Co. This is being built between Lanker-shim and Burbank.

C. R. Coluburn, formerly of this city but who was called to Janesville, Wisconsin, last May, has returned to Glendale and expects to make his home here permanently. Mr. Coluburn is a building contractor.

Mrs. Margaret Ranger, formerly owner of the dry goods store purchased by H. S. Webb & Co., was married October 29th at Portland to W. R. Beardsley. They will make their home in that city.

Mr. and Mrs. G. K. Barnes of 1311 Brand boulevard gave a farewell dinner party Thursday evening at "La Ramada" in honor of Mr. and Mrs. Geo. P. Bent and daughter Barbara, of Chicago, who leave Sunday on a trip around the world.

Rev. C. A. Cole and wife and Miss Margaret Overton attended the annual county Sunday school convention at Pomona, held on Tuesday, Wednesday and Thursday. About 1200 delegates from outside points were present and the attendance at the sessions averaged 2000.

Miss Margaret Carlyn, of Sunnyvale, California, who has been visiting in the V. M. Hollister and the R. M. Brown homes, left yesterday for a visit with friends in Hollywood. Miss Carlyn's home is near San Jose and this is her first visit to Southern California.

Mrs. Frank Stang of Mt. Washington, Los Angeles, was a luncheon guest of Mrs. Colin Cable, 505 South Columbus avenue, yesterday. Mrs. Stang and Mrs. Cable attended the meeting of the music section of the Tuesday Afternoon club, which met at the home of Mrs. Arnold in the afternoon.

Mrs. H. E. Betz of 424 North Kenwood street recently attended at a dinner and kitchen shower Miss Ruth Ballie of Los Angeles, who is soon to be married to Lieut. Geo. Parris of the Arcadia Balloon school. Mr. and Mrs. Charles Ballie, parents of the bride-elect, Lieut. Geo. Parris, and brother, Killian Parris, of Arcadia, were the guests.

Dr. C. R. Lusby, dentist, who, in partnership with J. H. Lord, began the operation of a motorbus line from Pasadena to Pomona, in connection with H. A. Wilson's Ocean Park to Pasadena line through Glendale, on Armistice Day, is highly elated over the success of the first day's run. He says the outlook is very promising. Five round trips a day between Pasadena and Pomona are made, the run taking an hour and a half.

Dr. Harry St. Clair of 1250 South Maryland avenue, who took a very active part in the campaign for legalizing the appointment of a state chiropractic board, is considerably elated over the large vote the measure received, even though it did not carry. He says that the measure won in Oklahoma this year, making 26 states in which the practice is now legal-ized. "Watch California swing in line with 100,000 votes to the good, in our next initiative," says Dr. St. Clair.

E. L. Osborn and daughter Grace and E. L. Osborn, Jr., wife, and children are moving today from 1029 S. Glendale avenue to the new home just completed at 406 West Wilson avenue. Mr. Osborn, Sr., has financed the erection of 14 houses in the tract he owns, bounded by Broadway, Pacific avenue, Salem and Columbus avenue. Nearly all of these were on Wilson avenue. Several will be built soon facing on Broadway. Mr. Osborn says.

Carrying out the educational feature of the Y. M. C. A. program the clubs have been taking educational trips. The past week the Moreland Truck Co. plant was visited by the separate groups. The Moreland Co. took the boys in as their guests and furnished guides who explained the many operations in truck construction. The next trip planned is to the Radio school of the Los Angeles Y. M. C. A., where the boys can see the big "radio plant in operation.

THE BUSY MAN

Sometimes we find a man who thinks he is so busy that he can't, possibly, spare a few minutes to consider Life Insurance when, in fact, he needs it BADLY. Such a man is not really busy—he's only "fussy." I am reminded of the verse which says:

"You can make your wife think
You're too busy to stay;
You can make your kind think
You're too busy to play;
You can make your friends think
You're too busy to buy;
But you can't make DEATH think
You're too busy to DIE."

W. B. Kirk
Protector of Homes

White Inn SUNDAY DINNER

12:30 TO 8 P. M.

Special Chicken Dinner

and all that goes with it

Corner Broadway and
Glendale Ave.

Mr. and Mrs. John Waters of Long Beach are spending the week-end with their niece, Mrs. P. C. Ayers, of Tenth street.

Mr. and Mrs. W. B. Crocker of North Cedar St. have returned from an extended trip in the east, having spent the summer in New York state.

City Manager Watson will arrive at home this afternoon from Chico, where he attended the annual meeting of the League of California Municipalities.

Mr. and Mrs. W. H. Nisbet of 338 Hawthorne street are motoring to Santa Barbara today with their son, W. C. Nisbet, of 326 Oak street, who is going to Lompoc on business.

Miss Edythe Atkinson of North Maryland left Thursday morning for Denver, where she will make her home in the future. Her father has been transferred from Los Angeles to Denver, where he will be the manager of a drug store. Miss Atkinson has lived in Glendale for 10 years. She was a junior in high school this year. Several entertainments were given in her honor before she left.

Mr. and Mrs. Wm. Chappell, who will be remembered as the proprietors of Chappell's dry goods store in this city, returned to Glendale yesterday following a stay of six months in the east, most of which time was spent in Missouri and Iowa. Mr. and Mrs. Chappell are astonished by the remarkable growth of Glendale in the short time they were away. They are making their home with Mr. and Mrs. G. H. Mead of 341 West Wilson avenue until suitable accommodations can be found.

Mr. and Mrs. J. T. Crampton, 325 Burchett, entertained a few friends at dinner last evening in honor of Mrs. E. T. West, of Norfolk, Va., who is visiting her sister, Mrs. Harwood Bristow, of 203 East Chestnut street. Pink and white chrysanthemums were used as decorations. Covers were laid for the following: Mrs. E. T. West, Mr. and Mrs. Harwood Bristow, Mr. and Mrs. C. R. Hallett, Mr. and Mrs. J. T. Crampton and Miss Grace Crampton.

A. R. Hildreth is a new yearly subscriber to the Evening News, though he has been a reader of the paper most of the time during its existence. Mr. Hildreth and wife prefer living in Glendale, though his work now is with the Inglewood Park Cemetery Development Co., the headquarters of which are in the Van Nuys building. Mr. and Mrs. Hildreth have been residents of Glendale for nearly 10 years, first on East Windsor road and for the last seven years at 217 Milford. In his work for the cemetery company Mr. Hildreth has 10 men under him.

Local Girl to Rescue

The telegraphic dispatches yesterday in noting a railway accident at Grand Junction, Colorado, mentioned Miss Helen Baylis as being the first nurse who answered the call for help. Miss Baylis is well known in this city; she received her training at Glendale sanitarium. She lived here four years, having gone to her home in Grand Junction less than a year ago.

SENIOR PARTY

UPPER CLASSMEN ENJOY EVENING OF SONGS, GAMES AND "EATS"

The seniors, that group of high school students looked upon with awe by their under-classesmen, and which is considered the "peppiest" class of the G. U. H. S., gathered in the music room of the school last evening for a good time. Artistic decorations of red flowers and greenery added to the spirit of gaiety. Red and green are the class colors. Lively games and songs were enjoyed, much of the success of which was due to the careful planning of Miss Myra Jones and Tom McNary, who had charge of this part of the program. Real "jazz" music was interspersed throughout the evening.

Refreshments were then in order and the jolly crowd of young folks adjourned to the cafeteria. Here the tables had been placed in the form of a large H, in the center of which was a large green basket filled with red flowers. Table covers of green and red crepe paper were used. After delicious refreshments of ice cream and cake had been served, short speeches were given by Miss Knight and Coach Hayhurst, the class teachers and advisors, Carroll Parcher, student body president, and Wilbur Jones, class president. This ended one of the best parties ever given by a senior class and is one which will long be remembered by those present.

Music Section

(Continued from Page One)
Mozart (1766-1791); Or che in Cielo "Marino Fallero," Donizetti (1798-1848).

Mr. Faggioli's clear tenor voice won the audience by its sympathetic fibre and qualities and when at the close of the program Mrs. Arnold brought forth a beautiful young woman and presenting her with a bouquet of violets, introduced her as the bride of Mr. Faggioli and also made the statement that they are residing in Glendale, the assemblage showed its delight with applause. That Glendale is becoming the mecca of California for artists was the unspoken thought of the assemblage.

Miss Lloyd sang splendidly and received much applause. She was presented with a beautiful bunch of chrysanthemums by the hostess.

Following the program, dainty refreshments were served and a social half hour enjoyed.

Mrs. Laura Stevenson Spang, who sang so delightfully for the Music Section at its previous meeting, was among the sixty guests present.

Assisting the hostess were Mrs. Roscoe Puffer and Mrs. Walter Jones.

EXCEED \$175,000

NOVEMBER PERMITS THUS FAR
SURPASS OCTOBER'S FOR
SAME PERIOD

C. H. Toll's chauffeur was driving the Nash sedan out from the driveway at the home on Kenneth road yesterday when he collided with an Oakland, driven by Mrs. Para of Riverside. Neither driver was hurt, but both cars were badly damaged about their fronts.

STORY OF THIBET

(Continued from Page One)
resembles Southern California. The high cost of living had no terrors for her family. When they could get no new clothes, they wore their old ones; they had a fine garden and several mountain cows, so that they always had all the milk and butter they needed. In fact, they found living conditions easier in Thibet than in the United States.

Mrs. Shelton has spent seventeen years in the service. The talk was spiced with wit and humor, yet underneath even her lighter moods one felt the strong, earnest purpose of one devoted to a lifetime of service.

Mrs. Shelton emphasized the truth that every human being, civilized or savage, feels the demand for religion and explained one great difference between the Christian and Buddhist faiths by saying that one was the religion of service to others, the other the religion of self. She spoke with especial tenderness of the women of Thibet and other similarly benighted countries. She believes they are admitted to heaven, for her close association with them has convinced her that they live up to the best they know, and are eager to know and to do better; that most of us living, as they do, in squalor and dirt and misery, would not be as good as these women. She says Christianity must be taught the heathen not by showing him you despise his religion, but by contrast, showing him by the example of a Christian life the beauty and nobility of Christian faith.

The difficulty of inculcating any ideas of civilization in these people may be seen from Mrs. Shelton's statement that in the language of the natives of Thibet there are no words to express "honor," "patriotism," or "morality." She has translated in their language a hymnbook, geography, a book of stories and the book of Esther, and she was on her way to Calcutta with her husband early last January, to have these books published, when Dr. Shelton was captured by bandits and held for ransom.

He refused to be ransomed, fearing that this would establish a precedent that would jeopardize the safety of every missionary in the country. They held him for seventy-one days; French, English, United States and native governments, meanwhile, making every effort to obtain his release.

Dr. Shelton was finally abandoned to die in a cave, the bandits having kept him running so fast in order to keep ahead of soldiers who were in pursuit that he was nearly dead from exhaustion. After a three days' rest he made his way out.

Mrs. Shelton will remain in her native land for several years, in order that her two young daughters may come to realize that they are really Americans. They are located in Pomona, where the girls, aged 13 and 16, respectively, have entered Pomona High school, the younger as a freshman, the older as a junior. Thanks to the careful teaching of their parents, they are in no way behind children who have had regular school advantages. Mrs. Shelton says her girls' work in winning the natives of Thibet was perhaps more important than hers, for she speaks the classical language, while the children picked up the dialect through association with little native playmates.

The Shelton girls are interested in their studies and in their association with others of their own age and station (never having had more than six white children to play with during their whole lives in Thibet), yet they long for their old home, at times.

Two other interesting features of yesterday's program were delightful solos by Mrs. Warrenner and Mrs. Cleo Stoler.

The regular monthly business meeting and a prayer service preceded Mrs. Shelton's interesting talk, and the afternoon closed with a social hour, during which tea and delicious home-made cake were served by the hostess.

Bible Study Club

The Wednesday Afternoon Bible Study club of the Presbyterian church pleasantly surprised Mrs. Orpha Brown on Friday afternoon at her beautiful new home, 534 West Doran street. The missionary work of the club was furthered with a special collection of post cards and pictures which will be forwarded to a missionary in the foreign field. Mrs. L. A. Sweatt, of Sparks, Nevada, a guest in Glendale, gave a most interesting talk on "The Indians of the High Sierras" and of the missionary work among the Indians, especially east of Monterey.

Those enjoying the afternoon were Mesdames J. Rhea Baker, Robt. B. Chisholm, A. W. Van Loon, J. E. Bel-lue, L. A. Sweatt, W. E. McCormick, J. W. Blankenship, F. W. Harper, J. Felix, G. B. Porter, J. E. Stanton, Wm. F. Grundy, Wm. Zeitz, C. C. Shaw and C. M. L. Nelson.

Death of Miss Barton

Miss Eliza Barton, aged 78, died at the home of her sister, Miss Helen Barton, 200 East Dryden, Thursday, Nov. 11. She came to Glendale from Ohio about three weeks ago on account of failing health. Funeral services will be held this afternoon in the chapel at Hollywood cemetery, the L. G. Scovern Co. in charge, with interment there.

THE NEW IDEA ABOUT THRIFT

A woman used to be thought thrifty if she did all the baking, the preserving, the cooking, the sewing, the cleaning, the washing and ironing,—in a word if she toiled from morning to night she was thrifty.

The thrifty woman today is the one who can get all these things done economically and still have time for recreation and self-improvement.

We are here to help the thrifty woman of today. We call for her laundry bundle and wash her clothes scrupulously clean by simple, sanitary methods that prolong the life of the fabric.

A phone call is all that is necessary to bring one of our wagons to your door.

TRUSTEES' MEETING

Continued from Page 13

The bonds accompanying the bids were referred to the city attorney, who reported that the bond of George B. Curtis was apparently incomplete; but on further examination he reported the same to be regular and sufficient. The bids were referred to the city engineer to check up and report; the chairman stating that no further action would be taken at the present meeting, but that the matter would come up at the next regular meeting November 18, 1920, at 8:00 p. m.

Mrs. Jessie B. Mock by her attorney, Owen Emery, made an application for a permit to keep a limited number of bed-ridden patients at 250 North Verdugo road. On motion of Trustee Henry the request was granted, subject to the usual restrictions.

A communication was read from the Glendale Theatre of special appreciation for a floral contribution on the opening night of that institution.

A communication was read from the Engineering Service Co. of Los Angeles recommending Engineer Fuller. Both communications were filed.

The city manager submitted a written communication recommending acceptance of the bid of Cunningham, Curtis & Welch Co. for supplying safe for the needs of the Public Works department; also recommending the acceptance of the bid of the Elliot Fisher Co. to furnish one book-keeping machine for the sum of \$1549.60. On motion the recommendations were approved and the bids ordered to be accepted in accordance therewith.

The city marshal made a report on the application of Ernest W. Reed for a permit to shoot within the city limits, and, on motion of Trustee Henry, the application was denied.

The city clerk reported the receipt of \$75.59 from the Pacific Electric Railway Co., being 2% of the gross receipts of that portion of the company's system covered by Ordinance No. 217, from Brand boulevard eastward. On motion the same was ordered to be accepted.

Demands were presented and referred to the Finance committee. Later the Finance committee reported them back approved, and, on motion of Trustee Bartlett, warrants were ordered to be issued in payment of same.

The engineer of the Public Service department, in reference to the bid of C. W. Kent & Son, requested a week's time in which to make a recommendation. There having been no bid received for the installation of the booster pump, it was ordered that the same be installed by the Public Service department.

The engineer of the Public Service department recommended that plans for the Ross reservoir, as amended by the state engineer, be approved, and, on motion, it was so ordered.

The engineer of the Public Service department presented a contract with the Layne & Bowler Corp. for furnishing a pump in accordance with their bid, recommending the execution of the same. He stated that if cash is paid the city will receive the advantage of 3% discount, amounting to \$49.65 and on motion of Trustee Henry it was ordered that the contract be approved, the chairman of the board and the city clerk be instructed to sign same on behalf of the city and that the payment of cash, as recommended, be authorized.

On motion of Trustee Robinson, it was ordered that a warrant for \$1,602.41 be drawn and approved in favor of the Layne & Bowler Corp.

The engineer of the Public Service department presented specifications for furnishing booster pump motor and also specifications No. 2 for furnishing booster pump, both of which were, on motion, approved.

On motion of Trustee Henry the ordinance previously presented to the board regarding the construction and maintenance of public and private automobile garages, etc., was adopted as Ordinance No. 411.

Trustee Henry made a motion, seconded by Trustee Robinson, that the city attorney be instructed to draft

ARE THEY YOURS?

LEE S. THOMAS WANTS TO KNOW HOW THREE CUSHIONS GOT INTO HIS AUTO

Has anyone in Glendale missed a leather cushion and two sofa cushions from his machine?

Lee S. Thomas, 123 North Brand, has them in his machine. He doesn't know when, where or how they appeared there, but he discovered them in the back of his machine yesterday. He had had his machine in a Los Angeles garage the night before, and supposed someone there had put them in his car by mistake.

Last night he had occasion to run his machine into the same garage for the night. Nobody in the place knew aught of the cushions, so Mr. Thomas evolved the theory that children in some car parked beside his in Glendale must have playfully pitched the pillows from their car into his, and then forgot to get them back.

When he went for his car this morning, Mr. Thomas found only two pillows; the leather one was gone. Everyone in the garage disclaims any knowledge of its disappearance. Mr. Thomas wishes the owner would come to claim his pillows.

Pass 13th Milestone

The cosy home of Mr. and Mrs. A. W. Van Loon of 118 North Adams street was the scene of a delightful dinner party last evening which celebrated their thirteenth year of married blessedness. The guests were about sixteen in number, all Mr. Van Loon's family, as Mrs. Van Loon has no relatives in California. Those present were Mr. and Mrs. W. C. Van Loon, Mr. and Mrs. John A. Ehlers, Miss Mildred Ehlers, Mr. and Mrs. O. W. Leonard and daughters, all of Huntington Park; also Mr. and Mrs. Bert Poulsen, Miss Mary Van Loon and Miss Lillie Lowry of Los Angeles. After a sumptuous chicken dinner the guests surprised the host and hostess with a shower of one-dollar bills, and Mr. Van Loon presented the "bride" with a steam pressure cooker.

Pleasant Surprise

Mrs. Margaret Campbell of 316 E. Dryden yesterday entertained at a 6 o'clock dinner in honor of her niece, Miss Ruth Sprankle, the occasion being Miss Sprankle's birthday, and the dinner a surprise. The table was beautifully decorated and a huge birthday cake formed the centerpiece. The guests enjoyed a very delightful evening. Those present were Miss Sprankle, Mrs. Margaret Campbell, Miss Nettie Campbell, Mr. and Mrs. Wayne McNatt and sons, William and Charles.

an ordinance repealing Ordinance No. 294 regulating motion picture production establishments. Roll call resulted as follows:

Ayes, Henry, Robinson, Stephenson.

Noes, Bartlett. (Trustee Shaw, who had just entered, not voting.)
A resolution made by Trustee Stephenson was adopted requesting the Zoning committee to report to the Board of Trustees at its next regular meeting, the recommendation of the committee as to the zone established, within which motion picture production establishments may be operated.

The city engineer reported on the bids for the improvement of Sycamore Canyon road to the effect that the lowest bid is that of George R. Curtis aggregating \$132,115.00. On motion of Trustee Stephenson further action in regard to the bids for the improvement of Sycamore Canyon road was deferred until 8 p. m., November 18, 1920.

On motion of Trustee Bartlett, City Manager T. W. Watson was added to the Zoning committee.

Trustee Bartlett brought to the attention of the board the unsatisfactory service given by the Pacific Electric cars in refusing to stop at certain cross streets on Brand boulevard. Attention was also called to the refusal of these cars to stop at Everett street.

THE FARM CENSUS

Figures just issued by the census bureau, showing the number of farms in the country, with comparisons with the number in 1910 and 1900, present some interesting problems.

The statistics reveal that during the last 10 years there has been a falling off in the number of farms in the East and Middle West. The New England states show the greatest decrease. This decline can be attributed to the developing of residential and manufacturing districts. But the purchase and unification of small adjoining farms by men of wealth has also played some part in the matter.

In the Southern states, with few exceptions, the number of farms shows an increase. As this part of the country has been settled up of large estates than to the development of new agricultural land.

The Rocky Mountain and Pacific Coast states show a marked increase. There are more than twice as many farms in Montana now as 10 years ago. While the partition of cattle ranches into wheat-growing farms has had something to do with this, the clearing and cultivation of land previously idle has also played its part.

Whether the number of farms which are cultivated is great or small is not of so much importance as the number of idle farms. The census figures offer no information as to this, but from another source it is learned that there are 6000 idle farms in Pennsylvania, a similar number in New York, and still more in the states of the middle west, while many sections of New England are a waste of abandoned farms.

3 STUDEBAKERS SOLD IN 3 DAYS

SOME GOOD SUGGESTIONS
ANENT BRAKES MADE BY MEM-
BER OF PACKER & WHITE

The local Studebaker agency of Packer & White, corner of Brand boulevard and Colorado street, sold three machines this week up to Wednesday afternoon. One was bought by Wm. E. Farlander, living on Riverside drive, and the other two were sold at Van Nuys.

"Next to excessive speed the greatest source of accidents is the condition of automobile brakes," said Mr. Packer in a general conversation with a News representative.

This is a most serious question and in some states has been given legal consideration. In New Hampshire, for instance, owners of machines are compelled by law to appear at police headquarters once a month to have their brakes tested. An expert mechanic is employed by the city and as the automobile owner appears he notes the condition of the car's brakes on a card index. Then, should said owner encounter an accident during the month, the cards show whether or not the accident could have its origin in faulty brakes.

This system in New Hampshire, where the winter season is so long that cars are stored for a considerable period of each year, works out nicely, but it seems in California, where there is one automobile to

every six persons, a rather tedious process. If autoists would pay more attention to their brakes there would be fewer accidents by far. Of course, such cars as the Studebaker have powerful brakes and it is of comparative little trouble or expense to keep them in effective condition.

HUDSONS ARE GOING

NEW PURCHASERS OF SUPER-SIX; SENATORS TO RIDE IN A HUDSON

Chambers & Felts, 228 South Brand boulevard, have sold to Henry Cuccia of Glendale and Paul Bruscia of Burbank each a Hudson Super-Six speedster, and to J. Leslie an Essex.

When the Senate meets in Washington next month the members who have official business to transact in other departments of the Government will find a Hudson Super-Six awaiting them at the entrance of the senate chamber. This was the first official car placed by the Government at the disposal of the senatorial body.

Spitting at high speeds in a car fitted with a vacuum feed system may be caused by a sticking float in the tank, by an air leak in the line running to the inlet manifold or to dirt or rust in the line running to the tank.

Roy L. Kent, of the contracting firm of Chas. W. Kent & Son, is driving the first 1921 Buick to arrive in Glendale. It's a "beauty."

POOR ALIGNMENT IS RESPONSIBLE

FOR MUCH TIRE WEAR; W. M. PLATT GIVES SOME GOOD ADVICE

Millions of miles of tire service are lost annually through misalignment of automobile wheels. Faulty alignment can rasp away, before the owner realizes it, half to two-thirds of the service that is in a tire.

Although extreme cases are easily detected by the way the car steers, slight cases are almost unnoticeable to the ordinary driver, even though they may be thieving hundreds of tire miles.

This condition is not always the fault of bent axles, of broken springs, loose spring shackles and sprung frames, but is due often to loose steering knuckles, to bent pinions, to worn bearings and wobbly wheels.

Any part of the running gear which has become worn or out of shape is bound to cause undue friction on the tires. Frequent examination of car wheels for alignment will prove exceedingly profitable to the car owner, according to Wilbur M. Platt, of Platt's tire store, 129 South Brand boulevard.

The wheel alignment proposition has come to be of such vital importance in the tire industry that service stations are putting in machines to test alignment while the car owner is getting gas or air. The day is not far distant when this service will rank with air service in the tire shop.

NEW AUTO MART SERVICE STATION

FOUR DIFFERENT LINES OF WORK DONE UNDER ONE ROOF

OPEN EVERY NIGHT

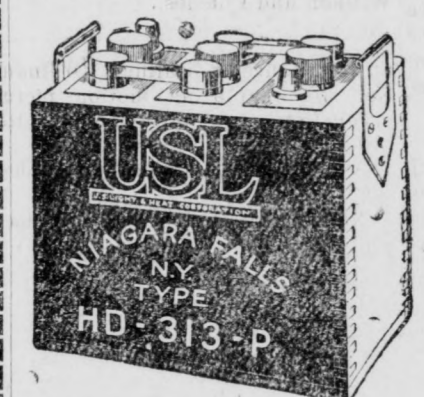

CARS ALSO BOUGHT, SOLD AND EXCHANGED; CONVENIENCE FOR THE PUBLIC

There is a new place in Glendale where you can not only sell or exchange your car or buy a used one, but also can have any repairs or alterations made on your car that you want, and that all under one roof, too. You can have your top repaired and painted or a new one put on; the radiator can be fixed and the engine can be thoroughly overhauled, and if you want the body and fenders fixed up or new ones put on that can be done, too, at the same time. And you don't have to go outside of this place to have acetylene welding done, either. Can you imagine a more convenient arrangement than this for the auto public?

And still better yet, your car doesn't have to be laid up during the day for repairs, for all this work can be done at night if necessary, for this combination service station and auto mart will be kept open until 12 o'clock every night in the week. Then, too, if an emergency arises on Sunday which necessitates work being done, your car will be looked after on that day, also.

Four well-known Glendale men, who are all experts in their respective lines, have opened the kind of a place you are reading about at 246 South Brand boulevard, near Colorado, in the brick building in which is located the branch office of the Southern California Automobile club. They are E. W. Kingsley, C. E. Johnson, A. A. Tyler (these three were lately located around the corner on West Colorado street), and A. R. McGrath. The latter-named has been connected with the mechanical department of one of the leading automobile agencies of Glendale. Mr. McGrath says that he will guarantee every bit of work that he turns out; in fact, he says that if he does not give satisfaction he wants no pay.

You are invited to call and inspect the commodious quarters of the new institution and see how well equipped it is for doing all this work.

LET US INSPECT THE ELECTRICAL SYSTEM OF YOUR CAR

If your battery is repairable, we can add eight months to its life.

If it doesn't need repairing we will tell you so without charge for inspection.

If it is not worth repairing we will sell you a

A GAS RECORD FOR 3000 MILES

OAKLAND SENSIBLE SIX COMES FROM DETROIT WITH REPAIR COST OF ZERO

E. J. Maycock and S. T. Wyatt arrived in Long Beach a few days ago from Detroit, Michigan, in an Oakland Sensible Six.

"We made the trip of 3,000 miles without any trouble whatever, and we feel we cannot speak too highly of the performance of the Oakland," said Mr. Maycock. "We left Detroit October 5, and took the national old trails highway to San Bernardino, making the short cut from Santa Fe to Holbrook by way of Gallup. The roads were good until we struck New Mexico and Arizona.

"From Ash Fork to San Bernardino, a distance of nearly 600 miles, we made only one stop for lunch. We left Santa Fe at the same time as the Santa Fe Limited and we had

NEARLY 20 MILES TO THE GALLON

THE WILLYS-KNIGHT INCREASES IN POWER AS IT IS USED; A BEAUTIFUL SEDAN

On a recent trip to Santa Barbara Mr. Lawrence of the Overland and Willys-Knight agency, 215 East Broadway, got nearly twenty miles per gallon of gasoline, which he feels is an exceptional record for this size and price car. The Fiske tires on this car have done nearly 8,000 miles and show but little signs of wear. And the most remarkable feature of the whole car is its increase in power as additional miles are rolled off; due, Mr. Lawrence says, to the fact that carbon increases the efficiency of the sleeve valve action. The motor might be said to be self-tuning and is constantly at the peak of its performance.

Mr. Lawrence recently took an order for a Willys-Knight sedan for his

mother and maintains that it is about the last word in exterior beauty and detail of appointment.

Has to Rush Work

Aler G. Waddell, advertising manager for the Chevrolet factory, in Oakland, visited Southern California a few days ago. According to Mr. Waddell, who is one of the best known members of the automobile industry in California, Chevrolet output at Oakland, where the factory completes 120 cars per day, is barely able to keep up with the demand.

"We have about all we can do to keep up with the ever-increasing orders now," he said. "In a short time I expect we will have to increase our present output at least 50 per cent to keep up with the avalanche of orders we are receiving.

"The popularity of the Chevrolet is fast becoming almost magical. Everyone knows the car, and everyone that has ever ridden in it is more than pleased by its performance.

"Many men and women who have been partial to other and higher priced cars are turning to the Chevrolet because it is sturdy, economical and always ready for the road."

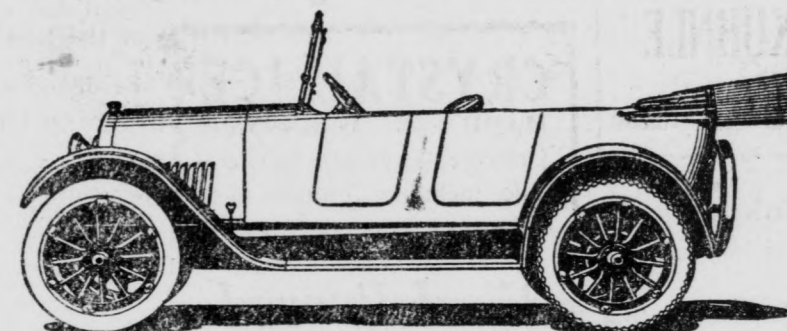

The Product of Experience

Brains and experience have combined in producing the Chevrolet Motor Car. They have been built to fit the requirements of critical motorists. Certainty and economy of service reflects the thoroughness of its construction.

Its value is increased by its low price and economy of operation.

Touring Car \$820 F. O. B. Flint, Michigan

No Matter What The Make Of Your Battery We'll Help You To Add To Its Life

Glendale 1918-W

GREAT GROWTH OF THIS CITY

RESULTS IN LARGER AND MORE
VARIED STOCKS BEING
CARRIED BY DEALERS

It is doubtful if those who have lived in Glendale for some time realize the strides being made in our splendid little city in a commercial way.

Not so long ago it was barely possible to get more than a fair line of groceries and the commonest of articles along other lines. Not so now, however. Our many groceries and markets vie with one another to hold the trade away from the larger city and the dry goods and furnishing

stores are showing and selling goods that are a credit to any place. It is now possible to get not only staple articles, but novelties as well in practically every line of trade. This is especially noticeable when it comes to automobile supplies, as handled so extensively by the Monarch Auto Supply Co. It is hard to find a concern of this kind anywhere so fully equipped to take care of every want of the motorist and the auto mechanic.

Sold Trucks, Tractors

M. H. Pehr, 610 East Broadway, has recently sold two Fageol trucks and a tractor at Lankershim. It is announced that a Tulsa Six model is about to make its appearance. Mr. Pehr will get one for demonstrating purposes.

NEW BRANCH

TO BE ESTABLISHED AT VAN
NUYS BY THOS. WIDMEYRE
OF GLENDALE

Thomas G. Widmeyre, the well-known Nash representative of 207 North Brand boulevard, Glendale, will open a branch salesroom and service garage next Monday at Van Nuys. W. W. Brown, the Nash salesman, whose services Mr. Widmeyre has regarded highly, will have charge of the Van Nuys institution, which will handle the business in that part of the San Fernando valley. The salesroom and service garage will occupy a space 50x110 feet in a concrete building. The branch will be known as the Van Nuys Nash Sales Co.

AUTO THIEVES APPLY BUSINESS

PRINCIPLES TO TASK OF TAKING
CARS AND SELLING THEM
TO THE OWNERS

FORTUNES ARE MADE

THEY KNOW ALL ABOUT LOCKS
AND HOW TO BEAT
THEM

Give a needle a speed of 60 miles an hour and then try to find it in a haystack made up of nothing but needles. The hopelessness of the task is practically no greater, a recent investigator of the auto stealing industry reports, than that of recovering a stolen car.

Partly for this reason, it seems, the stealing of motor cars has developed into a regular industry in which fortunes are made and a large number of persons are engaged. Thus, we are told, a man died in New York recently who had made half a million dollars in this line of endeavor. He is said to have been the first to apply business principles to the industry, and though he reaped his reward, his death is supposed to have been caused by the nervous strain incident to his nefarious calling.

No other product of human industry has ever been so promiscuously stolen, it is said, the records showing that fully a tenth of the cars manufactured annually fall a prey to thieves. Locks and other devices don't entirely prevent, though they save many cars. The car stealing gentry seem to "get away with it" in spite of all obstacles.

The modern professional automobile thief is the most thoroughly competent practitioner on earth. You may lock your car with all the locks you can find; you may chain it with nickel steel chains; you may burden it down with thief-proof devices, but you may make up your mind that if a bona fide automobile thief has determined to have your car you are going to lose it. Don't imagine, however, that I mean to imply that all automobile locks are worthless, for they are not—but we shall come to that a little later on.

The professional automobile thief has usually been a chauffeur. He has probably worked in a garage, repair shop, service station, or even in an automobile factory. He is a master mechanic, and knows every nut and bolt on the car, every piece of equipment that may or may not be installed, every device that has been designed for preventing car stealing better than the men who design cars, equipment and devices.

This master among thieves has a method of overcoming every impediment that is placed in his way, and as fast as new ones are invented he finds a way to meet them. If conditions are not propitious for working at the mechanism of the car, in order to circumvent the owner's precautions, the light-fingered gentleman is no whit disconcerted. He only has to bring upon the scene his service car—strangely named for such work—and tow away the prize to a more convenient location, where he completes at leisure the task of restoring his loot to running condition.

Auto thieves in the large cities like New York, and Chicago, and more and more so in cities like Los Angeles, Philadelphia and Kansas City, work in gangs, and operate well-equipped garages, to which all stolen cars are taken for alterations. The business is said to have developed the latest wrinkle in specialization. Each gang devotes itself solely to one make, and its garage becomes a sort of clearing house for cars of that kind. Just as in other lines of business, some men in the auto-stealing industry rise above their fellows and conduct operations on an elaborate scale. An example of such an operator is given:

This man was a wholesaler in stolen machines. He had many garages and innumerable single operators working for him. He rebuilt cars, and on occasion actually sold back the original owner a vehicle that had passed through his factory. He shipped his loot to all parts of the country, as the market varied or the chase became hot. He was arrested scores of times, but in spite of the fact that the police know that he was the man higher up in the game, they never were able to secure a conviction. This individual was the first large-scale operator in stolen automobiles, but he has many imitators today.

The great majority of stolen cars, however, are not taken by the professional thief, but fall into the hands of the "joy rider." This is usually a youth with a taste for motorizing, but destitute of the wherewithal required for the purchase of a car and with but hazy ideas regarding the exact meaning of meum and tuum.

Studying registrations, the Howard Automobile company, Buick distributors, San Francisco, find there are 70,000 women motorists in California—more, it is said, than in any other state; and 85 per cent of them are city women, San Francisco and Los Angeles, together, having 25,000.

Why Super-Six Records Are Unequaled

Who can forget the interest the coming of the Super-Six excited?

A single invention had added 72 per cent to power; 80 per cent to efficiency. A motor that formerly delivered 42 H. P. at maximum, produced 76 H. P. through the patented Super-Six principle.

But doubt met it at the threshold. The majority verdict was "Incredible!"

Even more positive, experts said, "Impossible."

Yet, so startling were the claims made for it, that attention amounting to controversy was centered on the Super-Six.

Then Hudson submitted the proofs. It swept into the discard all existing stock records of importance.

It set the world's records for 1 hour; for 100 miles; its 24 hour stock chassis performance beat the best previous mark by 347 miles.

No worthwhile record remained unbeaten. The Super-Six had verified.

That was nearly five years ago. From that day to this the Hudson Super-Six has been the largest selling fine car in the world.

The Gardner Standard

100 Per Cent Values

In designing and building the Gardner Light Four, beauty and style, roominess and comfort were considered.

Wide seats, comfortable backs, extraordinary leg room and elbow room, skillful shaping, deep, spiral springs, on ventilated wood base with just the right give, a comfortable position at the wheel with restful tilt and pedals just right, a well arranged and complete instrument board right at hand, complete and simple equipment, clutch and brake pedals easy to operate—these are some of the things you will appreciate when you purchase that Gardner Four.

USE BRAKES LESS

MAKE CAR DO LARGE PART OF
THE WORK THROUGH THE
CITY—GET MORE SERVICE

In city driving especially drivers should make their motors stop their cars as well as start them. Mr. Tanner, of Tanner & Hall, Ltd., Buick dealers at 237 South Brand boulevard, made some interesting suggestions along this line.

"When you are driving in the downtown district, you will see many motorists speed up unnecessarily between blocks, and come to a stop at the crossing with squeaking brakes and sliding tires.

"Every one who has driven at all realizes that his motor becomes a brake just as soon as he takes his foot off the accelerator.

"The man, who, in city driving, is content to attain a reasonable speed between blocks and to let his motor do his braking for him when he approaches the corners will have a longer-lived and better performing car, lighter tire and repair bills, and he will, in the long run, travel just as far in a day as the fellow who 'drives with his brakes.'"

A lot of undertakers would find business rather dull if they depended on folks dying in the natural way.

Who can remember the old-fashioned mother who made daughter wear a chest protector in the winter?

A THING OF BEAUTY IS THE GARDNER

LIGHT FOUR — EVERY ATTENTION GIVEN TO THE LITTLE DETAILS

The Gardner designers have worked on the idea that straight-line simplicity would give the best appearance, without being radical or extreme. The unexpected angle at the dash—the low, slanting windshield—the broad, wide-opening doors—the half oval mouldings—the tall hood with the slim louvres—the flat, almost severe top edge, most refreshing to the eye—the outside door handles—all spell beauty and style.

When you carefully examine the Gardner-Light-Four in comparison with other cars in a similar class, particularly note the details. After all, the biggest things in life are the little things, and in the designing and perfecting of this car the Gardner organization has paid particular attention to the little details. A little more comfort here—something handy, there—a touch of style in another place—a little better finish in another—all through the construction of the car you will find the little details carefully guarded and perfected. The result is—a harmonious and well-balanced automobile that is pleasing to the eye, comfortable to the occupant, and a sense of power and security to the driver.

Call at the Gardner salesroom, 230 North Grand, for a demonstration.

NEW HEADQUARTERS

NORTHWEST BUSINESS OF THE CHEVROLET TO BE DONE AT PORTLAND

Construction has begun at Portland, Oregon, on the new Pacific Northwest warehouse and zone headquarters building, which covers about half an acre and will cost \$140,000. On its completion about February 1 it will be occupied by a new corporation.

MEXICAN PASSPORTS

NO LONGER HANDING THEM OUT AT THE INTERNATIONAL BOUNDARY

For the information of motorists who are interested in investigating certain conditions in Mexico, touring bureaus throughout the southern part of the state announce that all passports to cross the international boundary at Tia Juana must hereafter be secured in San Diego.

According to the Automobile Club of Southern California officials in San Diego, hundreds of auto parties are being turned back at the line because they forgot to secure their passes at the postoffice in San Diego.

It's a long trip back to the city from Tia Juana, and it is absolutely impossible to get passes at the customs house there, so the official warning is sounded that if you don't want a lot of trouble you will do well to procure your passports at the proper place before you start for the Mexican boundary.

Robert Plume, of the Monarch Supply Company on South Brand, has bought a Nash from Thos. G. Widmyre, the local representative on North Brand boulevard.

tion just formed, the Chevrolet Motor Company of Oregon.

This company will conduct the entire wholesale business in both cars and parts for the present Chevrolet company in the Pacific Northwest. It supersedes, as far as that territory is concerned, the Chevrolet Motor Co. of California, which formerly held jurisdiction over all of Oregon, Washington, Idaho and western Montana.

Erection of the building and formation of the new company are in fulfillment of a promise made a few months ago by Clifford M. Steeves, personal assistant to W. C. Durant, that a new Chevrolet zone would be created for the Pacific Northwest with Portland as its headquarters and distributing point. The new zone is known as Zone 20, and the Chevrolet Motor Company of Oregon is its administrative organization.

Sensible Six

The Best Personal Transportation

The car in which practability and comfort are united to set a standard for motor car design and construction.

The Oakland Sensible Six possesses originality, yet it avoids extremes. It is perfectly capable of furnishing reliable transportation over a long period comfortably and conveniently.

The Oakland Sensible Six is a desirable possession for the family with wholesome transportation ideas. Freedom of choice is afforded by four conservative body types, correct in style and carefully finished and structurally competent to serve long and well.

- THE OAKLAND SENSIBLE SIX OPEN CAR
- THE OAKLAND SENSIBLE SIX SEDAN
- THE OAKLAND SENSIBLE SIX COUPE
- THE OAKLAND SENSIBLE SIX ROADSTER

The Oakland Sensible Six is moderate in initial and upkeep costs and has a record for tire and gasoline mileage. The purchaser is protected by a guarantee against any reduction in price before May 1, 1921.

ABOUT HEADLIGHTS

HERE ARE FACTS THAT WILL KEEP YOU WELL "WITHIN THE LAW"

Motorists who want to know just what they can and cannot do to conform with the state headlight law so as not to be arrested in the gigantic state-wide campaign to eliminate headlight glares which goes into effect immediately, are answered as follows by the legal department of the Automobile Club:

To conform with the law, you must:

1—Use an approved glare-controlling device.

2—This device must be used in conjunction with a candle power light bulb not in excess of that permitted with the device.

3—Before putting on the device, adjust the lamps according to the instructions issued by the state examining board on the matter.

4—Spotlights must be firmly "anchored," so they cannot be moved by the driver, and the rays, at 100 feet from the car, must not reach higher than forty-two inches from the ground.

You must NOT:

1—Drive without an approved device on your headlights.

2—Must not drive without lamps tilted at legal angle.

3—Must not have more than candle-power light allowed for device.

4—Must not have movable spotlight.

If motorists are in doubt as to the law on any of the questions they may receive free service from the Auto Club on the matter at the headquarters or at any branch office.

It is not how fast an automobile can run that should govern its desirability to the owner, but it is the reliance that can be placed upon its running when it is wanted to run that counts for service.

If the number of automobiles in use on the public highways increase in the next five years as in the past five years, the roads will be too narrow to accommodate them.

What's Inside

Inside your battery box are rubber jars.

Inside the jars is the solution.

In the solution are the positive and negative plates that supply current.

The job of Threaded Rubber Insulation is to keep the plates insulated and yet permit free flow of current for starter, lights and ignition. Threaded Rubber Insulation is the kind selected by 136 manufacturers of passenger cars and motor trucks.

NEW OAKLAND RE-ATOMIZER

THE REAL ANSWER TO THE LOW GRADE GASOLINE PROBLEM OF THE DAY

UNIFORM GAS FLOW

YOUR MODEL 34-C WILL BE EQUIPPED WITHOUT COST TO YOU

The Oakland people are equipping their 34-C models with a new re-atomizer which, it has been demonstrated, practically overcomes the low-grade gasoline problem. All 34-C models of the Oakland are entitled to this equipment, and anyone having purchased this model from Green & McClellan, the local agents, can have the improvement installed at the garage, 115 West Harvard St., without additional cost. The re-atomizer will be installed on all other models of the Oakland for a sum only sufficient to cover the cost to the local firm.

The re-atomizer represents the greatest achievement in fuel vaporization offered by any manufacturer of automobiles, it is claimed by the Oakland people.

The grade of gasoline which is used today is extremely difficult to completely vaporize, and even when the vapor has been made it is easily condensed by striking any obstacle to its free passage. The butterfly valve used in all carburetors, and which is held at an angle for ordinary driving, presents just such an obstacle. As the vapor strikes this butterfly valve a portion of it is condensed and thrown against walls of the manifold and carried into the cylinders in unequal amounts. A small portion of this liquid fuel is re-vaporized in the cylinder, making the mixture overly rich in that particular cylinder, while the remainder runs down the cylinder walls and finds its way into the crankcase, where it dilutes the lubricating oil.

The evil effects of this unvaporized fuel is there twofold and results in not only unequal fuel charges in the different cylinders, but also in constant dilution of oil in the crankcase, which soon dilutes it to a point where it loses its lubricating value—a clear waste of both fuel and oil. It is to remedy these conditions that the Oakland re-atomizer was designed.

The re-atomizer is placed between the carburetor and manifold. It comprises a one-and-one-quarter spacer into which is pressed a venturi throat carrying four small tubes. The spacer contains a passageway of the same diameter as the intake manifold. The venturi throat is a metal tube which fits snugly into the spacer passageway and is shaped on the inside somewhat like the central portion of an hour-glass. Around the lower outside edge of the venturi throat is a groove or annulus which forms a small circular chamber between the inside of the spacer and the outside of the venturi throat. Four very small equally placed tubes are pressed at an angle into holes through the wall of the venturi throat and connect the circular chamber with the central gas passage. Any liquid gasoline which reaches the walls of the carburetor or manifold is caught in the circular chamber or annulus around the bottom of the re-atomizer, from whence it is re-atomized through the four small tubes leading into the center of the gas passage. It is thus carried in perfect vapor through the manifold and into the cylinders.

The complete vaporization makes it possible to cut down the supply of gasoline to the carburetor to a considerable extent, thus giving greater fuel economy, conserving lubricating oil, and resulting in a much superior engine performance.

A GREAT CAR IS THE STEPHENS SALIENT 6

IT IS WORTH YOUR WHILE TO EXAMINE THIS BEAUTIFUL AND POWERFUL CAR

The Stephens is a car whose style and beauty stand unmatched among medium-priced machines. Its quality wins greater appreciation with each succeeding season because it is a car of limitless endurance ready for all demands of service you may make. It is a car with ample power to take you over the hills in high with ease, and a car that has proven to be the most economical in every respect on the road because the Stephens perfected overhead valve engine burns all the fuel and burns the lowest grades of gasoline without lessened performance.

The Stephens Salient Six is simply the combined expression of the experience of some of the best motor car men in the United States, who keenly sense and constantly collect suggestions that make up the needs and desires of the motor car owners of every locality.

It is worth your while to examine a Stephens and have its points explained to you, whether you intend to purchase a car now or later.

L. N. Hazood, 143 South Brand boulevard, will take pleasure in demonstrating this great car to you.

BIG DEMAND ANTICIPATED

THIS WINTER FOR THE HUDSON SUPER-SIX CARS, SAYS

MR. CHAMBERS

ENGINE KEPT WARM

KEEPING THE RADIATOR AND ENGINE WARM ESSENTIAL IN COLD WEATHER

"I believe that this winter will be one of the greatest seasons in history for new automobiles," said Mr. Chambers, of Chambers & Felt, 228 South Brand boulevard, distributors of Hudson and Essex cars.

"Right now we are finding an increased demand for all models. This is the time of the year when the motoring public quite naturally turns attention to closed models as shelter from the damp weather and the many conveniences that are only to be found in these types. All of the Hudson closed car models which are becoming more popular than ever, can be converted by means of their convenient window lowering devices, into almost the equivalent of the touring car or phaeton. There are a great many reasons why the Hudson Super-Six plays strong favorite in winter as well as in summer. For many years the problem that worried auto designers was how to keep the motor from overheating. The low grade fuels of today however have almost reversed this situation. Every motorist knows that a cold radiator is not efficient. Lack of power, missing cylinders and a generally unsatisfactory performance can be expected. With a cold motor the driver uses an extremely rich mixture, almost raw gas is fed into the cylinders, passes the piston rings and drops into the crank case, diluting the lubricating oil and decreasing its lubricating qualities, then under hard usage a bearing may burn out.

"The only simple and logical way to heat up a motor rapidly was to shut off the passage of air through the radiator. That is what the radiator shutter on the Hudson does and it is a feature that the experienced motorist appreciates.

"The average motorist never has his motor at efficient operating temperature unless his car has the shutter device. To prove this: with the shutter tightly closed, it will take two miles of driving to bring the heat of the Hudson motors up to the point of full efficiency. You can imagine now how much driving it would take to get the same effect with a full circulation of air through the radiator.

"With the meter on the radiator cap and the shutter adjustment at his hand on the dash, it is an easy matter for the Hudson driver to keep his motor constantly at the most efficient temperature."

BATTERY INSPECTION

A. S. KNOX, OF THE EXIDE SERVICE, MAKES SOME VERY TIMELY SUGGESTIONS

While all motorists may not be in the class with the chap who takes an actual delight in passing all his spare time tinkering about the garage, most of them have some knowledge of the inner and outer workings of their cars. They know that the spark plugs must be cleaned, valves must be ground, that carbon should not be allowed to accumulate in cylinders, that the gear box must be kept filled with grease, and that even so matter-of-fact a thing as a tire appreciates an occasional change of air; but the average motorist knows almost nothing of the battery except that it is there to furnish current for starting and lighting.

"When motorists thoroughly appreciate the great saving of time, money and annoyance which follows the regular inspection of their batteries, we will see a remarkable country-wide increase in starting and lighting efficiency.

"Drive through the suburbs any Sunday and you will see men tinkering with their cars, greasing and oiling them and fussing with them, but seldom do they look at the battery," points out A. S. Knox, Exide battery distributor here.

"It takes only a short time to stop at a battery service station and have the electrical supply of the car looked after. Because batteries are built so that they give little trouble is no reason for ignoring them entirely.

"Batteries can go a long time without a drink, but not forever."

Old Residents Here

Mr. and Mrs. C. Rich and little daughter, who were residents of Glendale over 12 years ago and are now living in Los Angeles, were in our city this week looking over two beautiful lots owned by them on N. Brand. They were callers at the new home of R. S. Todd on North Maryland avenue, Thursday. Henry A. Michel, of North Central avenue, who is the builder and designer of Mr. Todd's home, will build for them in the near future.

point of full efficiency. You can imagine now how much driving it would take to get the same effect with a full circulation of air through the radiator.

"With the meter on the radiator cap and the shutter adjustment at his hand on the dash, it is an easy matter for the Hudson driver to keep his motor constantly at the most efficient temperature."
